THE STANDARD—WEDNESDAY, NOVEMBER 30 1881

HOWARD'S CELEBRATED PLOUGHS

Howard's Small Ridging Plough

A small ridging plough, fitted with a double mould board and working up body and much seed by means and vegetable growth.

Weight 1 cwt.

Howard's Water-Furrow Plough

This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water-furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould board, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the harrowing machine, and drainage is facilitated.

With steel breast, weight 1 1/2 cwt.

Howard's Potato Ploughs.

With a pair of horses, this implement will raise three to four rows of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D. fitted as above, weight 1 1/2 cwt.
D D, fitted as above, weight 1 1/2 cwt.
S D, fitted as above, weight 1 1/2 cwt.
B P, fitted as above, weight 2 cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.
